

Quality Inversion Products Since 1981

Gravity Boots

Durable Light Weight Construction

Each boot weighs only 2.5 lbs., but holds the ankles securely and comfortably.

Super Soft Foam Liners

Special blend of 5/8" foam designed to give maximum comfort with minimum compression.

Flexible Shell for Comfortable Fit

Tough yet pliable blend of DuPont Hytrel minimizes any pressure points.

5-Year Warranty

Full warranty coverage structural and soft parts.

Packaged weight: 5 lbs

Packaged dimensions: 6.5"x 9"x 2.75"

Used with EZ-Up Rack, Inversion Bar and F5000 Inversion Table

Can be used with many of Teeter Hang Ups products, depending on the user's needs.

Removable Calf Loops

Add comfort by placing a two-degree bend in the knees to help reduce the load on knee joints and the top of the foot.

One Size Fits Most

Boot straps adjust to ankles varying several inches in diameter.

Ratcheting, Self-locking Buckles

Double-lock system ensures safety and security.
